BLANCO COOK induction hob with a round cooking zone

BC IH 3000

Dimensions:

Length:	620 mm
Width:	400 mm
Height:	240 mm

Housing design:

The induction hob is made completely of micro-polished stainless steel (AISI 304), equipped with height-adjustable rotating feet. A 6 mm-thick glass ceramic surface is integrated flush in the cover and grouted with high-temperature resistant, highly elastic sealing compound. The glass ceramic surface is provided with a circular marking for the correct positioning of pots and pans. The air intake opening is below the unit and is via a removable air filter. The extracted air is removed via ventilation slits on the back of the top surface. The unit is designed to ensure that it can be positioned against a directly adjacent rear wall.
An operating area, moulded toward the rear for improved viewing and operator ergonomics, is seamlessly installed on the front panel to hold the output regulator.

Electrical equipment:

The unit is equipped with a microprocessor-controlled E.G.O. induction generator. Diameter of induction coil: 220 mm. Automatic pot detection from a pot/pan diameter of 120 mm. Continuous power control is carried out with an integrated rotary knob installed in the operating area. An indicator light provides information on the operating mode and the error code in the event of faults. The unit is completely electrically wired and equipped with a 1.5 m connection cable with a 250 V British plug (BS 1363) which exits at a downward angle on the underside.

Accessories/options:

- Glass-ceramic cleaning scraper
  Order No.: 568 489

- Clamping bar for bridging the gap to other
  BLANCO COOK units
  Order No.: 574 298

Technical data:

Material:	Stainles steel (AISI 304) Glass-ceramic
Weight:	approx. 19 kg
Protection type:	IP X4
Heat emission sensitive:	0.25 kW
Heat emission latent:	0.09 kW
Cooking zone:	220 mm dia.
Generator model:	E.G.O.-ATICS
Connected load:	220 – 240 V / 1N PE AC / 13 A / 50-60 Hz / 3.0 kW

Special features:

- High efficiency through induction technology
- Low heat dissipation
- Energy-saving cooking
- Micro-polished surface made of stainless steel
- Angled operating area
- High-performance induction generator
  made by E.G.O.

Make:

Manufacturer:	BLANCO Professional
Type:	BC IH 3000
Order No.:	574 790
